*Dear Marisa*

*I want to thank you from the bottom of my heart for the wonderful course you presented at CELT.*

*Having taught many years I felt I had a good grasp on the principles of teaching but I learnt so much more than I anticipated and most of all I learnt how it feels to be a student, such as those we teach. I've truly understood how we as teachers can bore our students or inspire them.*

*I pray I can continue in my work with a new flame of inspiration that I have learnt from all your teachings. If I can motivate my students and inspire them even a fraction of the way you motivated and inspired me then I know that I may be approaching a truly good teacher.*

*Thank you for everything Marisa but most of all thank you for being the wonderful teacher trainer that you are.*

*Yours with deepest gratitude  
Alice Kontos*
